

WORKING TOWARDS PEACEFUL, JUST AND INCLUSIVE SOCIETIES IN FRAGILE & CONFLICT-AFFECTED STATES

CIVIL SOCIETY PLATFORM FOR PEACEBUILDING AND STATEBUILDING (CSPPS)

ABOUT CSPPS

The Civil Society Platform for Peacebuilding and Statebuilding is a global network of civil society organisations supporting peacebuilding efforts in fragile & conflict-affected settings. CSPPS aims to amplify and strengthen the voice and agency of local civil society in fragile settings.

CSPPS engages in and influences peacebuilding, statebuilding and conflict prevention policy development in the context of the International Dialogue on Peacebuilding and Statebuilding (IDPS), the 2030 Agenda for Sustainable Development, the New Agenda for Peace and other relevant policy domains.

OUR THEORY OF CHANGE

If we shape and influence global and national structures and processes to address sources of destructive conflict and to build resilience, countries and their citizens will then be less likely to resort to violent conflict because they will have means to manage their grievances and build the quality of their lives.

AT CSPPS, WE STRIVE FOR INTERNATIONAL COLLABORATION THAT BRINGS SUSTAINABLE PEACE AND INCLUSIVE DEVELOPMENT FOR ALL.
